Provides lists of selling prices of items found on eBay in such categories as antiques, boats, books, cameras, coins, collectibles, dolls, DVDs, real estate, stamps, tickets, and video games.

From the acclaimed authors of "Programming ASP.NET" comes this comprehensive tutorial on writing Windows applications for Microsoft's .NET platform.

Provides an overall introduction to the welding process, illustrating most of the common equipment and work techniques for both the home and shop welding.

The book deals with the theory and practice of all electrophoretic steps leading to proteome analysis, i.e. isoelectric focusing (including immobilized pH gradients), sodium dodecyl sulphate electrophoresis (SADS-PAGE) and finally two-dimensional maps. It is a reasoned collection of all modern, relevant, up-to-date methodologies leading to successful fractionation, analysis and characterization of every polypeptide spot in 2-D map analysis. It includes chapters on the most sophisticated mass spectrometry developments and it helps the reader in navigating through the most important databases in proteome analysis, including step by step tours in selected sites. Yet, this book's unique strength and feature is the fact that it combines not only practice (in common with any other book on this topic) but also theory, by giving a detailed treatment on the most advanced theoretical treatments of steady-state techniques, such as isoelectric focusing and immobilized pH gradients. A lot of this theory is newly developed and presented to the public for the first time. Thus, this book should satisfy not only the needs of every day practitioners, but also the desires of the most advanced theoreticians in the field, who will surely appreciate the novel theories presented here. Also the methodological section contains several as yet unpublished protocols, correcting some of the existing ones and showing the pitfall and limitations of even well ingrained protocols in proteome analysis, which are here critically re-evaluated for the first time.

Natalie Shapero spars with apathy, nihilism, and mortality, while engaging the rich territory of the 30s and new motherhood

Previously published; newly refreshed by author—including bonus chapters! Petal, Georgia: Small town, second chances and sizzling romance. At twenty-eight, Lily Travis never imagined she'd be back living with her mom and dealing with her messed-up little brother. Yet that's exactly where she finds herself, seven long years after she left Petal, Georgia—and the boy who broke her heart—in the dust. Her first order of business? Getting her ex to help turn her brother's life around. If he happens to notice just how much she hasn't been missing him, all the better. As a teacher, Nathan Murphy is used to dealing with the unexpected, but nothing prepares him for Lily—looking like a smokin' hot vintage pinup come to life—strolling through his door and right back into his heart. He always regretted the way things ended between them; this could be his chance to make up for past mistakes. Lily can't resist Nathan's Southern-honey charm, or the way he makes her melt when she's in his arms. She fell for him once—falling for him again could destroy her. But it could also mean finding love in the last place she ever expected: home FREE BONUS CHAPTERS INCLUDED IN THIS EDITION! A Visit to Petal, Part One: Alone Time All couples need a little alone time. Glimpse what the citizens of Petal are up to in between Once and Again and Lost In You, the next book in the series. Now available at the end of the novel! One-click with confidence. This title is part of the Carina Press Romance Promise: all the romance you're looking for with an HEA/HFN. It's a promise! This book is approximately 46,000 words
