"Crimson Tempest (Survival Wars Book 1)," is a mainly bland, simplistic space romp, that reads quickly. The overall story theme follows a well known SciFi formula: veteran captain, loyal crew, fight singlehandedly against an alien threat, and conspiracy behind the lines.

Crimson Tempest is the first novel in the Survival Wars series by Anthony James, and good news, you can read and enjoy this as a stand-alone novel or continue on to the six books that follow. Crimson Tempest is worthy military science fiction with developed characters and backstory. I'm always leery of books billed as military science fiction.

Fifty-three years after it vanished, Earth's only Super-Devastator warship, the ESS Crimson sends out a distress signal... Humanity is fighting against an implacable foe. The Ghasts - a ruthless alien race - seem hell-bent on wiping out mankind. They have a vast warfleet and their technology is advancing at a terrible rate. Captain John Nathan Duggan and his crew are given a mission - find the missing ESS Crimson and bring it home. Little does Duggan realise, this is no ordinary mission. As he struggles against enemies both within and without, he desperately tries to unlock the mystery surrounding the Crimson's disappearance and the unknown weapons it carries. be the only hope for salvation that mankind has left. When everything is veiled in secrecy nothing is easy, as Duggan is about to find out. Crimson Tempest is the first instalment in an epic sci-fi action-adventure series.

Captain John Duggan rots in his cell, facing execution at the hands of his captors. Having discovered the secret which the Ghosts wished to remain hidden, he is left powerless to find answers to the questions which will determine the future of the Confederation. Elsewhere in the Garon sector, the Dreamers have been putting their own terrible plans into action. They possess the power to destroy entire worlds from unimaginable distances. Whilst humans and Ghosts descend once more into war, the biggest threat of all puts in motion a chain of events which will result in a hundred billion deaths if left unchecked. John Duggan and his crew are forced into a position where they must end not just one war, but two. The Space Corps' most accomplished officer will be reunited with humanity's most powerful weapon in a race to forge peace when a return to conflict seems inevitable. Standing above all else is the seemingly unstoppable Dreamer mothership, which Duggan must face if he is to succeed against the longest of odds. Fires of Oblivion is a science fiction adventure and the fourth book in the Survival Wars series.

God Ship. The tormentor of worlds. For thousands of years, the Vraxar have brought ruin and misery across the universe. Each species they find has met the same fate - extinction and conversion into new soldiers for their ranks. An upstart race - humanity - has wiped out the aliens' advance fleet. The Vraxar will not give up - they must clear a way through Confederation Space in preparation for their future wars. Captain Charlie Blake is always in the wrong place at the right time. He's given a mission - take a heavily-armed warship and investigate an anomaly on a distant planet. Blake and his crew locate a catastrophically-damaged enemy Neutraliser, and there's no record of an engagement with human forces. Lieutenant Eric McKinney and his troops are left with the task of getting inside and finding answers. What they discover deep within the huge spaceship gives an idea of the horrors to come. The Vraxar have summoned one of their capital ships. Ix-Gorghal has arrived and even with assistance from an incredibly-powerful Ghost battleship, it will take every ounce of Space Corps firepower, ingenuity and plain old guts to survive the first punishing encounters. God Ship is a high-action science fiction adventure and the third book in the Obsidian Fleet series.

The year is 2009. Nineteen-year-old Jackson Meyer is a normal guy... he's in college, has a

girlfriend... and he can travel back through time. But it's not like the movies - nothing changes in the present after his jumps, there's no space-time continuum issues or broken flux capacitors - it's just harmless fun. That is... until the day strangers burst in on Jackson and his girlfriend, Holly, and during a struggle with Jackson, Holly is fatally shot. In his panic, Jackson jumps back two years to 2007, but this is not like his previous time jumps. Now he's stuck in 2007 and can't get back to the future. Desperate to somehow return to 2009 to save Holly but unable to return to his rightful year, Jackson settles into 2007 and learns what he can about his abilities. But it's not long before the people who shot Holly in 2009 come looking for Jackson in the past, and these "Enemies of Time" will stop at nothing to recruit this powerful young time-traveler. Recruit... or kill him. Piecing together the clues about his father, the Enemies of Time, and himself, Jackson must decide how far he's willing to go to save Holly... and possibly the entire world.

Nothing says "home" like being attacked by humans with very large guns, as Jane and Anyan discover when they arrive in Rockabill. These are professionals, brought into kill, and they bring Anyan down before either Jane or the barghest can react. Seeing Anyan fall awakens a terrible power within Jane, and she nearly destroys herself taking out their attackers. Jane wakes, weeks later, to discover that she's not the only thing that's been stirring. Something underneath Rockabill is coming to life: something ancient, something powerful, and something that just might destroy the world. Jane and her friends must act, striking out on a quest that only Jane can finish. For whatever lurks beneath the Old Sow must be stopped...and Jane's just the halfling for the job.

In boyhood, Louis Zamperini was an incorrigible delinquent. As a teenager, he channeled his defiance into running, discovering a prodigious talent that had carried him to the Berlin Olympics. But when World War II began, the athlete became an airman, embarking on a journey that led to a doomed flight on a May afternoon in 1943. When his Army Air Forces bomber crashed into the Pacific Ocean, against all odds, Zamperini survived, adrift on a foundering life raft. Ahead of Zamperini lay thousands of miles of open ocean, leaping sharks, thirst and starvation, enemy aircraft, and, beyond, a trial even greater. Driven to the limits of endurance, Zamperini would answer desperation with ingenuity; suffering with hope, resolve, and humor; brutality with rebellion. His fate, whether triumph or tragedy, would be suspended on the fraying wire of his will. Appearing in paperback for the first time—with twenty arresting new photos and an extensive Q&A with the author—Unbroken is an unforgettable testament to the resilience of the human mind, body, and spirit, brought vividly to life by Seabiscuit author Laura Hillenbrand. year by Time magazine • Winner of the Los Angeles Times Book Prize for biography and the Indies Choice Adult Nonfiction Book of the Year award “Extraordinarily moving . . . a powerfully drawn survival epic.”—The Wall Street Journal “[A] one-in-a-billion story . . . designed to wrench from self-respecting critics all the blurby adjectives we normally try to avoid: It is amazing, unforgettable, gripping, harrowing, chilling, and inspiring.”—New York “Staggering . . . mesmerizing . . . Hillenbrand’s writing is so ferociously cinematic, the events she describes so incredible, you don’t dare take your eyes off the page.”—People “A meticulous, soaring and beautifully written account of an extraordinary life.”—The Washington Post “Ambitious and powerful . . . a startling narrative and an inspirational book.”—The New York Times Book Review “Magnificent . . . incredible . . . [Hillenbrand] has crafted another masterful blend of sports, history and overcoming terrific odds; this is biography taken to the nth degree, a chronicle of a remarkable life lived through extraordinary times.”—The Dallas Morning News “An astonishing testament to the superhuman power of tenacity.”—Entertainment Weekly “A tale of triumph and redemption . . . astonishingly detailed.”—O: The Oprah Magazine “[A] masterfully told true story . . . nothing less than a marvel.”—Washingtonian “[Hillenbrand tells this] story with cool elegance but at a thrilling sprinter’s pace.”—Time “Hillenbrand [is] one of our best writers of narrative history. You don’t have to be a sports fan or a war-history buff to devour this book—you just have to love great storytelling.”—Rebecca Skloot, author of *The Immortal Life of Henrietta Lacks*

Following decades of war and the recent catastrophic loss of an entire planet, the Human Planetary Alliance is riven by internal disputes and rivalries. The military's old guard fights for power against those who see a chance to turn things around. After a series of hard-fought victories, Captain Carl Recker is becoming recognized as a man who gets results - a man who knows how to beat the Daklan. Unfortunately, enemies from his past would prefer to claim his successes as their own, and Recker finds himself caught between two factions within high command. Escape comes in the form of a mission, though it's nothing run-of-the-mill. Given command of a new heavy cruiser, Recker is sent to track down a missing Daklan fleet and recover the alien technology it was searching for. It's going to be tough and assistance comes in the form of a Daklan desolator, commanded by a larger-than-life officer who knows his missiles from his Terrus slugs. Deep within territory contested by the Meklon and Lavorix, Recker and his opposite number will need to work closely together. Trust is in short supply, while enemies are not. Faced with countless hostile aliens and their technology, Recker has his work cut out if he wants to stay on the right side of dead. And soon, he will draw the attention of the Lavorix empire breaker. The Galactar is coming, and against it, Recker stands no chance at all. Galactar is a traditional-style science-fiction action adventure and the third book in the Savage Stars series, following directly after events in *Fractured Horizons*. Expect space combat, ruthless aliens, mysterious tech and lots more.

Amir Tarkos is one of the only humans in the Predator Corp, the most feared and respected military force in the Galaxy. The Predators seek to prevent and punish lifecrimes: violations against ecosystems. With his partner Bria, a bear-like carnivore, Tarkos is given a dangerous and difficult mission. Deep space probes have located the last surviving Ulltrians, a race that once waged a holy war to force competition among the ecosystems of known space, and as a result nearly extinguished much of the life in the Galaxy. Tarkos and Bria must locate the Hammer of Gods, a pair of co-orbiting sunless planets that are the last refuge of the Ulltrians, and discover the Ulltrian plans for a second attack on the Galactic Alliance.

This is the story of a young man who was raised as a Jehovah's Witness, seemingly destined to spend the rest of his life following the instruction of God's 'Spirit Directed Organisation'. He soon came to discover however, that things were not as they had first seemed. Following a patch of doubt and subsequent in-depth investigation into the religion, the young man began to realise that the things he had previously accepted without question no longer made sense. His eyes were opened to the various powerful methods that were, and still are being used to control the minds of the faith's followers. The story contained within these pages describes the author's life, from his upbringing as a Jehovah's Witness, his struggles along the way, and the challenges he faced as he tried to break free. His extensive research into the religion's history is also documented, including apparent accounts of questionable teachings and manipulative methodologies.
