The problem MX records are: 234.60.7.31.in-addr.arpa -> no reverse (PTR) detected 233.60.7.31.in-addr.arpa -> no reverse (PTR) detected You should contact your ISP and ask him to add a PTR record for your ips. thanks in advance

domain name system - how solve ERROR: No reverse DNS (PTR ...

Start by identifying the four switch wires and terminals, then disconnect them. Move the gear lever to the drive position. Slacken the locknut and unscrew the switch from the gearbox a few turns. Using a circuit tester with its own power supply (not a test lamp), connect it across the two reversing light terminals.

Fixing a reversing light | How a Car Works

I just fixed my Kenmore 385 that had quit sewing in reverse. The mechanism just froze up from lack of use. Take the bottom off the machine to expose the mechanism, push the reverse button several times while studying the workings. If you do not use the machine much, it is likely just froze up.

Sewing Machine Won't Sew in Reverse? | ThriftyFun

Step 1. Run the engine for several minutes before attempting to put the car in reverse again. With both automatic and manual transmissions, transmission fluid may need time to heat up before it flows properly. This is especially true in the winter and for drivers located in cold regions.

How to Fix a Transmission That Won't Back Up | It Still Runs

I hooked a pressure gauge to the test port on the driver's side of the case and at idle the pressure is low in reverse and in L1 (30psi). It is highest in L2 (about 130psi) and in Park, Drive and Neutral all the same (90psi).

How to fix No Reverse in GM 4L80-E GM Automatic ...

If you have the stitch length set about 4 and then move the lever to reverse there is no reason why it should not do it, providing the stitch length lever is working on all stitch lengths the only possible reason why it will not reverse is because it may need some oil or the existing oil that may have been on the machine for years has congealed, mechanically there is very little to go wrong with the stitch length control, if you try that and still have a problem don't hesitate to contact me.

Kenmore sewing machine will no longer back stitch. Model ...

We were unable to perform a reverse lookup (PTR) on the IP Address of your mail server. This is a problem because many organizations will not accept email from a server without a PTR record. We recommend performing a Reverse Lookup on the IP Address for your mail server to try to find the cause of the error. You will need to contact your ISP and ask them to setup a correct PTR record for you.
