Fascinated by the podcast and Cambria's disappearance, Maynard Wills, PhD, a professor of folklore, embarks on his own investigation into the origins of the tapes and the Eyeless Man, who he believes has lurked in the dark corners of media culture and urban legends for at least seventy-five years. As part of his study, he has invited popular writers of horror and gothic fiction to share their own Eyeless Man stories, whether heard around the campfire or experienced themselves. For the better part of a decade, Anita Dalton's "Odd Things Considered" website has served as a unique outpost where sundry odd notions and odd creations, but mostly stacks upon stacks of odd books,are not merely considered, but treated with a kind of earnest analytical attention that's rarely encountered in contemporary cultural discourse.This massive anthology collects the most memorable and provocative examples of Dalton's conversationally-intoned counter-criticism, with insightful discussions of overlooked literature, anthropoermic biblioegy, serial killer memoirs, outsider manifestos, and conspiracy theories (among many other outré subjects) converging to illuminate a vast and volatile psycho-literary topography that has been ignored or deplored (but seldom explored) by our reigning arbiters of taste and culture.When you're ready to put down that Jonathan Franzen doorstep, consider picking up a copy of Anita Dalton's TL:DR/The Best of Odd Things Considered. You'll see what you've been missing.
