PETER BROOK - The Empty Space 16 quotes from Peter Brook: 'A stage space has two rules: (1) Anything can happen and (2) Something must happen.', 'Reality' is a word with many meanings.', and 'Time, which is so often an enemy in life, can also become our ally if we see how a pale moment can lead to a glowing moment, and then turn to a moment of perfect transparency, before dropping again to a moment of everyday simplicity.'

The former director of the Royal Shakespeare Company and current head of the International Centre for Theatre Creation in Paris presents three wide-ranging essays on his work--how he selects a play, how he directs, and what he seeks to achieve. Reprint.

Discusses four types of theatrical landscapes; the deadly theatre, the holy theatre, the rough theatre, and the immediate theatre.

What quality of space can foster the 'rising to another level' which is the ultimate aim of theatre? How can one overcome the obstacles -- cultural, spatial, material, technical -- which impede the sharing of experience which is the unique prerogative of performance? Peter Brook has consciously engaged these questions since turning his back on conventional theatre buildings in the late 1960s. This book tells the story of the journey of exploration into the fundamental character of theatre space he has undertaken with his collaborators over the last thirty years.

Peter Brook is known internationally as a theatre visionary, and a daring experimenter on the cutting-edge of performance and production. This book concentrates on Brook's early years, and his innovative achievements in opera, television, film, and the theatre. His productions are viewed separately, in chronological order, suggesting Brook's developing and changing interests. The authors include thought-provoking interviews with Brook (and with numerous outstanding artists who have worked with him) and bring to the reader penetrating critiques of Brook's theories and practices as a man of the theatre.

Conference of the Birds is John Heilpern's true story of an extraordinary journey. In December 1972, the director Peter Brook and an international troupe of actors (Helen Mirren and Yoshi Oida among them) left their Paris base to emerge again in the Sahara desert. It was the start of an 8,500-mile expedition through Africa without precedent in the history of theater. Brook was in search of a new beginning that has since been revealed in all his work--from Conference of the Birds and Carmen to The Mahabharata and beyond. At the heart of John Heilpern's brilliant account of the African experiment is a story that became a search for the miraculous.

In this volume Peter Brook is in dialogue with college students and faculty. Theatre professor Dale Moffitt has edited and arranged by subject twelve hours of spontaneous question and answer sessions from Brook's visit to the Southern Methodist University campus. Ranging widely over many topics, Brook talks about his innovative and award-winning production of Marat/Sade, his film and stage versions of King Lear, his nine-hour production of the Indian epic The Mahabharata. With passion and clarity he discusses acting, directing, auditions, film vs. the stage, his responses to the work of other theatre figures like Grotowski and Artaud, and the multiculturalism which characterizes his most recent work.

Peter Brook is the most consistently innovative director in Western theatre. In these three essays he returns to the concept of his first book The Empty Space and examines what that means for the life of a production. How can a company establish its own "empty space" - a rehearsal and performance environment which will encourage the actors to abandon the security of the hackneyed and release their true creativity? The potency of Brook's writing lies in his ability invest general truths with fresh vigour and to be as simple as he is profound.

In Tip of the Tongue, Peter Brook takes a charming, playful and wise look at topics such as the subtle, telling differences between French and English, and the many levels on which we can appreciate the works of Shakespeare. Brook also revisits his seminal concept of the "empty space," considering how theatre -- and the world -- have changed over the span of his long and distinguished career. Threaded throughout with intimate and revealing stories from Brook's own life, Tip of the Tongue is a short but sparkling gift from one of the greatest artists of our time.

'It is a pleasure to read. Well-written, free of cant, impressively wide-ranging. The book is really an introduction to the avant-garde.' - John Lahr

The book analyses in details how Peter Brook portrays the major woman characters of Mahabharata in his theatre and screen-play 'The Mahabharata.' The author compares Brook's portrayal with the Mahabharata Text and finds that it is not so easy to depict the rich ambiguity of woman characters on stage, and this, despite the fact that the Text bears much affinity with Theatre. Despite his laudable attempt to capture Mahabharata and its Woman on stage, Brook's theatre falls short of the glorious ambiguity and complexity of the Woman of Mahabharata.
