A Reference Grammar of French is a lively, wide-ranging and original handbook on the structure of the French language. It includes new information on register, pronunciation, gender, number, foreign words (Latin, Arabic, English, Spanish, Italian), adjectives and past participles used as nouns, texting, word order, frequency of occurrence of words, and usage with all geographical names. Examples come not only from France, but also from Quebec, Belgium and Switzerland. Readers will appreciate the initial passages illustrating the grammatical features of a given chapter. Also included is a user-friendly introduction to the French language, from its Latin origins to modern times. A full glossary explains any terms that might confuse the less experienced reader, and the index leads the student through the detailed labyrinth of grammatical features. This handbook will be an invaluable resource for students and teachers who want to perfect their knowledge of all aspects of French grammar.

The late Leo Spitzer enjoyed a reputation as one of the twentieth century's outstanding philologists and linguists. His writings in the field of the romance languages and of comparative philology have been always stimulating, often controversial. This collection presents his essays in English and American literature which appeared in various journals and other publications during his lifetime. They range from an explication de texte of three great Middle English poems, through close scrutiny of writings of Donne, Milton, Keats, to a consideration of Edgar Allan Poe and Whitman, and, finally, to one of Yeats' poems. Each of the essays in this collection is illuminated and heightened by Professor Spitzer's careful and imaginative exegesis. The delightful "American Advertising Explained as Popular Art" is included as a sample of Professor Spitzer's commentary on American culture. Originally published in 1962. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

This volume provides, for the first time, a pan-European view of the development of written languages at a key time in their history: that of the 16th century. The major cultural and intellectual upheavals that affected Europe at the time - Humanism, the Reformation and the emergence of modern nation-states - were not isolated phenomena, and the evolution of the orthographical systems of European languages shows a large number of convergences, due to the mobility of scholars, ideas and technological innovations throughout the period.

Laforgeue's collection of stories, the "Moralites legendaires," freely modernizes established stories of literary tradition according to the stereotypical preoccupations of 1880s Decadence. In this first complete study of the "Moralites" in any language, Laforgeue's stories emerge as brilliant examples of parody in its most creative form, among the most original prose creations of the late nineteenth century. Laforgeue is known to most English-speaking readers as an influence on T. S. Eliot. In France he is considered a major writer, alongside Symbolist writers such as Baudelaire, Rimbaud, and Mallarme. Laforgeue's stories fully exploit the creative possibilities of parody, and thus make a particularly illuminating contribution, resolving many long-standing theoretical questions. The stories provide a rich source for investigating the procedures of parody and for formulating a sufficiently general and flexible theory to account for the diversity of its form over time. Hannoosh examines the 1880s notion of Decadence with which Laforgeue's "Moralites" plays and attempts to revise the prevailing view of the movement to reflect the importance of parody therein. She provides close readings of the six stories: "Hamlet, Le Miracle des Roses, Lohengrin, Salome, Persee et Andromede," and "Pan et la Syrinx." Using an intertextual model of literary theory, Michele Hannoosh derives a theory of the genre overall and addresses the issues raised by metafictional theories of parody from the Russian Formalists onward. Michele Hannoosh is Assistant Professor of French and Comparative Literature at the University of California, Davis. She has written many articles on nineteenth-century French literature and art."

This volume presents the proceedings of the ninth workshop of the international network 'Impact of Empire', which concentrates on the history of the Roman Empire. It focuses on different ways in which Rome created, changed and influenced (perceptions of) frontiers.

This book showcases current research on language in new media, the performing arts and music in Africa, emphasising the role that youth play in language change and development. The authors demonstrate how the efforts of young people to throw off old colonial languages and create new local ones has become a site of language creativity. Analysing the language of 'new media', including social media, print media and new media technologies, and of creative arts such as performance poetry, hip-hop and rap, they use empirical research from such diverse countries as Cameroon, Nigeria, Kenya, the Ivory Coast and South Africa. This original edited collection will appeal to students and scholars of African sociolinguistics, particularly in the light of the rapidly changing globalized context in which we live.

This classic sociological examination of art as collective action explores the cooperative network of suppliers, performers, dealers, critics, and consumers who—along with the artist—“produce” a work of art. Howard S. Becker looks at the conventions essential to this operation and, prospectively, at the extent to which art is shaped by this collective activity. The book is thoroughly illustrated and updated with a new dialogue between Becker and eminent French sociologist Alain Pessin about the extended social system in which art is created, and with a new preface in which the author talks about his own process in creating this influential work.

Philosophy, art criticism and popular opinion all seem to treat the aesthetics of the comic as lightweight, while the tragic seems to be regarded with greater seriousness. Why this favouring of sadness over joy? Can it be justified? What are the criteria by which the significance of comedy can be estimated vis à vis tragedy? Questions such as these underlie the present selection of studies, which casts new light on the comic, the joyful and laughter itself. This challenge to the popular attitude strikes into new territory, relating such matters to the profundity with which we enjoy life and its role in the deployment of the Human Condition. In her Introduction Tymieniecka points out that the tragic and the comic might be complementary in their respective

sense-bestowing modes as well as in their dynamic functions; they might both share in the primogenital function of promoting the self-individualising progress of human existence. For the first time in philosophy, laughter, mirth, joy and the like are revealed as the modalities of the essential enjoyment of life, being brought to bear in an illumination of the human condition.

"Who Is God?" is a Bible Lesson Series that attempts to help the reader understand the character of God. Many people go through life knowing about God, but not fully knowing and understanding His true character. In these lessons, you will learn some of the names of God as they describe who God is and what He means in our lives.
