Peer Reviews
"This book is a valuable reference to the advanced iridologist who would like to clarify a sign or learn some new iris signs. Toni has presented her own research in this field showing signs never before discovered. The age old questions about iris change have been thoroughly addressed. She includes an explanation of the emotional links between organs and mind, making this text book a treasure of "Integrated Iridology". I thoroughly recommend this text to all students and practitioners of Iridology". Ellen Tart Jensen PhD., D.Sc. CCIJ USA Past president IIPA
"I am sure that all practitioners of the "healing arts" will greatly benefit from Toni's book and I personally see it becoming a "necessary" text for all those seeking to study, apply or teach iridology. I commend this text to all those interested in the study of Iridology and congratulate Toni on her achievement in producing such an outstanding resource". Denis Stewart BA ND DBM /Australia

This book covers all of the major topics required by the International Iridology Practitioners' Association for basic certification in iridology. It is one of several books available, and while it covers the syllabus requirements for certification, it includes discussions of Rayid and Chakras which are not part of testing requirements. It can be studied as a practice manual but also used as a textbook by any teachers wanting to prepare their students for the certification exam. The book has full color pages and iris photographs.

Flash cards in book form. Written by Toni Miller ND DHM Int. Irid. Iridologist of the Year 2014
Open up meaningful dialogue with your clients. A superb reference offers high quality photo samples as examples of what iris signs look like to enhance your explanations. Featuring effective graphics and detailed descriptions. Terminology has been thoughtfully written with both the iridologist and the client in mind. Some of the classical iridology terms have been upgraded to enhance understanding. The explanations of iris signs are based on nearly thirty years of clinical experience of the author and are explained according to 'Integrated Iridology' concepts, which combine philosophies from America, Europe and Australia.Whether you're learning, practicing or teaching Iridology, the Fundamental Flashbook will be a great asset to you. A satin finish protective coating on each page makes this an attractive addition to your iridology resources: This 68 page spiral bound set of flash cards is an ideal reference for students, which becomes a wonderful resource you will use every day in clinical practice.

If you are focusing on your wellness, then iridology may help. By studying patterns, colors, and other characteristics of the iris, iridology practitioners can glean insights about a patient's health, which can improve quality of life. In this introduction and explanation to the art and science of iridology, the author—who was named the International Iridology Practitioners Association Iridologist of the Year in 2016—traces the history of the science, from the father of modern iridology, Ignatz Von Peczley, to the present day. Filled with color photographs, charts, diagrams, and room to take notes, the book includes a Body Systems Companion to aid in a thorough understanding of how concepts in iridology relate to the physical body as well as study questions at the end of each chapter. Iridology Fusion explains the workings of iridology for certification purposes. It is the complete text-workbook for anyone learning iridology plus, this book is approved by IIPA for Level I and Level II curriculum.

An Iridology textbook that explains the interconnections between physical, energetic, emotional and mental manifestation, which should be kept in mind when observing iris signs at the physical level. It is estimated that 80% of physical health conditions and pathologies have a psychological basis. Toni uses her great depth of experience and research to demonstrate how we may uncover the sometimes-hidden emotions behind a presenting physical condition. This deeply insightful, superbly presented book will be a useful resource for students, iridologists, and other health practitioners, including those in the mental health arena.

Clinical Naturopathic Medicine is a foundation clinical text integrating the holistic traditional principles of naturopathic philosophy with the scientific rigour of evidence-based medicine (EBM) to support contemporary practices and principles. The text addresses all systems of the body and their related common conditions, with clear, accessible directions outlining how a practitioner can understand health from a naturopathic perspective and apply naturopathic medicines to treat patients individually. These treatments include herbal medicine, nutritional medicine and lifestyle recommendations. All chapters are structured by system and then by condition, so readers are easily able to navigate the content by chapter and heading structure. The content is designed for naturopathic practitioners and students (both undergraduate and postgraduate levels) and for medical and allied health professionals with an interest in integrative naturopathic medicine. Detailed coverage of naturopathic treatments provides readers with a solid understanding of the major therapeutic modalities used within naturopathic medicine each system is reviewed from both naturopathic and mainstream medical perspectives to correlate the variations and synergies of treatment only clinically efficacious and evidence-based treatments have been included information is rigorously researched (over 7500 references) from both traditional texts and recent research papers the content skillfully bridges traditional practice and EBM to support confident practitioners within the current health care system

Surveys the nine medical licenses as well as fifty nondegree healing modalities—including history, philosophy, basic techniques, and methods—and provides information on career and training opportunities.
