A completely revised and updated biography of Uri Geller in which the world famous man of mystery opens up about his work as a psychic spy for the CIA and Mossad - tying in with the release of a new documentary exploring this previously unknown area of Geller's past.

Is Uri Geller a CIA Masterspy? For over 60 years, spanning from his childhood to the Cold War to the current day, former Israeli paratrooper, Six Day War veteran and psychic Uri Geller has been an enigma. To many, he is an entertainer, a crackpot, a Hollywood hanger-on. Now, with his major new biography, journalist Jonathan Margolis takes us behind the scenes of Geller's public life to reveal his undercover work for the CIA, NSA, Mossad and the FBI. It is well known that from the early 1970s through to the mid-1990s, the CIA funded research into extrasensory perception, remote viewing, out-of-body experiences, and other psychic phenomenon. Who better to recruit than Uri Geller? His psychic abilities were repeatedly tested and verified by the Stanford Research Institute in California, and in one propaganda video, now available online, Geller is in an SRI conference room drawing a copy of a picture that has been hidden in a sealed envelope by an agent. In *The Secret Life of Uri Geller*, the seasoned journalist Jonathan Margolis traces hints left by Geller to tell the true story of how a poor boy from a broken family in the back streets of Tel Aviv went from being a playground sensation with strange powers to a bizarre player in the Superpower mind games of the 1970s, and who was later 'reactivated' after 9/11 for the notorious War on Terror.

"40 years ago, however, intelligence agencies needed to explore way-out ways of monitoring the bad guys. The people I interviewed on-the-record for the book were adamant that Uri Geller wasn't only able to gather secret information remotely and perform other espionage tasks, but was extremely good at it." Carson. And yet there are photographs from 1987 of Geller together with Al Gore, Yuli M. Vorontsov, First Deputy Foreign Minister of the Soviet Union, and several other high ranking US officials at nuclear arms limitation talks between the U.S. and the Soviet Union. What was Geller doing in these pictures? Margolis brings proof that Geller was there at the invitation of the chairman of the Senate Foreign Relations committee to influence Vorontsov's to sign the treaty. There is also new testimony from a living senior former CIA official and others who worked for the Agency confirming that Geller was exhaustively laboratory tested on behalf of the CIA, and was used as an intelligence asset of the CIA and Defense Intelligence Agency - and that under President Carter's presidency, using psychics in intelligence matters was known about and accepted at the White House. I never planned to become an expert on Uri Geller. A smaller boy made me do it - my son, David, aged 15 in 1996, when we first had the Internet, became fascinated online by the controversy over Geller. I sighed and tried to discourage him. He's just a washed-up fake, I explained. David was not convinced, and through a wonderful British inventor, John Knopp, whom I had interviewed, he made contact with Geller. Uri was soon inviting my whole family to come to his house. There was a slight setback when we turned up, all five of us, and Uri was out. His excuse was more than reasonable. He had been asked to go to the old Wembley Stadium to give some psychic support to the England football team. We returned another week. We saw a spoon bend on its own, and a series of quite extraordinary micro events, enough to fill a long article in themselves, unfolded. This weird little pattern starts up again every time I have contact with Uri, even if I'm thousands of kilometres from him. Now, intrigued, I began researching Uri, and found that everything I had told David - such as my absolute insistence that he had never been validated by science - was wrong. Even so, Uri's life has been so packed with extraordinary, bizarre and fascinating incidents, and so rammed with stories, that 17 years after first meeting him, I'm still learning. This book concerns a side of Uri that even many who know him well will not have been aware of until now. I think even the most sceptical reader will find it intriguing, and just possibly compelling.

The presence of extraterrestrial influence on all human history is clearly established through the revelations of one man, the fabulous Uri Geller. Millions have witnessed his incredible powers. Scientific inquiries have determined his authenticity. Now, one of the foremost investigators into psychic phenomena documents the not-of-this-world origins of his amazing gifts.

There is more to Uri Geller than his countless "miracles" - and James (The Amazing) Randi tells all in this fascinating examination of the Geller myth. - What really makes Geller run? - Why have scientists reported on all Geller's "successful" psychic tests and ignored his many failures? - Why will Uri perform almost anywhere, anytime, except in front of professional magicians? - Can Geller actually bend spoons, keys and nails with his "psychic" powers? - Why do people around the world continue to believe Geller has magic powers, when his tricks have been exposed many times? In an eye-opening exposé, Randi provides a devastating blow to Geller and the pseudoscience of parapsychology.

By celebrity psychic Uri Geller, this simple, fun and visually attractive guide explains how to improve your life by unlocking your intuition and learning this ancient but effective divinatory art. Dowsing simply means searching for something by intuition. It's widely regarded as being a psychic method of looking for water, but it's so much more than that - you can dowse for everything from lost objects to the self-knowledge hidden in your subconscious - and this book will show you exactly how. All of us have intuition but in this modern world we have become disconnected from this ancient power. Uri Geller is famous around the world for his intuitive, paranormal powers, which range from bending spoons to astounding feats of dowsing, such as his location of huge offshore oil field on behalf of Mexico's national oil company (for which he was rewarded with Mexican citizenship). In this amazing book, he guides you step by step through the hidden world of dowsing that he knows so well. Simple exercises in the form of Uri mini-class activities, and fun games such as crystal hide-and-seek, teach the basic skills you need to dowse, whether you use divining rods, a pendulum, a forked twig or just your hands. The book then explains how to use these skills to find everything from lost objects to water, fossils, archaeological remains and even hidden treasure! Most importantly, Uri reveals how dowsing can help you unlock submerged thoughts and knowledge and evaluate vital choices in business, love and family life. Also including real-life case studies of amazing dowsing events, stories of celebrity dowers through history and background explanation of the science of dowsing, this is a super accessible and fun guide to the most useful of the paranormal skills.

In this book, Uri Geller shows that the human mind is a powerhouse of energy, untapped by most people and yet capable of restoring physical and mental health. He shows that if you believe your mind is powerful enough to affect your health, you can send that message to your brain directly.

In 1949, in a poor Tel Aviv apartment, a three-year-old boy watched a soup spoon bend and break in his hand. Throughout childhood, Uri Geller discovered he had other astonishing psychic abilities. He turned them into a paranormal stage act and became a superstar in Israel. Word spread overseas, where some of the world's leading physicists attested to Geller's metal bending. His mind reading was validated by the prestigious science journal Nature. Acting on classified reports which indicated strongly that he was genuine, the CIA and Mossad vied for the services of the psychic prodigy.
