Countless books have been written about Sai Baba so far. Then why one more? And why does Dr Suresh Haware, who was the chairman of Saibaba Sansthan, want to write it? The answer lies in his five years of divine experience at Shirdi, an experience of a different world. Sai Anubhuti is not theoretical; it is practical. It cannot be expressed in words, he says. The Sai philosophy of 'shraddha-saburi' and 'sab ka malik ek' is very easy to understand but equally difficult to practise. Despite being a renowned nuclear scientist, Dr Haware states that there is something beyond science, something ethereal, an experience of the divine that cannot be completely captured. The events that led to his becoming the chairman of the trust indicate that Sai ways are not linear. The Sai Way is a beautiful tribute to Sai philosophy and spirituality narrated from a lived experience coupled with information about Saibaba Sansthan.
