Master the many styles of Wing Chun Kung Fu with this expert martial arts guide. With the fame of Bruce Lee, the conditions in Hong Kong, and the hard work and effort of many of his classmates, the Wing Chun of the late master Yip Man became one of the most well-known and popular Chinese martial arts in the world. Although this gave Wing Chun international recognition, it also led to a lot of misconceptions. Due to a lack of authentic information, many mistakenly came to assume that the renowned Yip Man was the sole inheritor of the style and that his Wing Chun was the lone version of the art. In fact, there are several different and distinct systems of Wing Chun. Unfortunately, over the years most of these systems have remained unseen or unreported to all but a few—until now. Profusely illustrated with over 300 historical photographs, Complete Wing Chun: The Definitive Guide to Wing Chun's History and Traditions presents seldom seen information on a dozen branches of the Wing Chun art. It offers the reader side-by-side comparison of these arts by outlining

Wing Chun is one of the most popular martial arts in the world. It was made famous by Bruce Lee and his master, Yip Man. The most practiced form of Wing Chun is the Hong Kong version, which is streamlined and compact. However, older systems survive in China and one of them is the obscure art known as Fut Sao (Buddha Hand) Wing Chun. Fut Sao Wing Chun was brought to America in 1961 by Grandmaster Henry Leung, (Hong Lei, Chi Man), who learned the whole system under Great Master Gao Jhi Fut Sao. The system was passed down in America to Master Leung's one disciple, Sifu James Cama. In this book Cama sets out, for the first time, the outline of the Fut Sao system of Wing Chun Kuen. This book is special because, for the first time ever, the Fut Sao Siu Lin Tao and its two-man set are revealed. The Hei Gung set and meditation visualization practice are also detailed. The gem of the art is its internal practices which are rarely seen in Wing Chun. Chapters included: forms training, weapons, training enhancement devices, sensitivity training and internal training.
